About the Platform

An EU-wide interactive project steered in partnership with European civil society

European Economic and Social Committee

The European Circular Economy Stakeholder Platform brings together stakeholders active in the broad field of the circular economy in Europe.

As a **"network of networks"** it goes beyond sectorial activities and highlights cross-sector opportunities and challenges, providing a meeting place for stakeholders to share their solutions and team up to address specific challenges, while bridging existing initiatives, and advocating the circular economy at **national, regional and local level, and supporting its implementation.**

This website will be pivotal in fostering exchanges and interaction and inspire the future EU vision on circular economy. It is work in progress and will evolve over time.

Background

The Platform website: what to expect?

Today, stakeholders can search here for best practices, knowledge documents, strategies, and noteworthy events. For any of these categories, they can also [submit content](#) to our editorial team.

In 2018 the website will continue to grow. Stakeholders will also be able to interact as we plan to offer interactive features with topical discussions to foster dialogue.

This is your website! Make it happen – submit your own contributions for others to learn.
