

**Invitation to an online event**  
**Fit for Today – How energy policy can increase the EU's security?**

26 April - 15.00-16.30

*The Russian attack on Ukraine has shocked the world. For the EU, the war proved to be a wake-up call: showing the dangers of increasing dependence on Russian energy supplies and prompted the need to re-evaluate EU energy and climate policy. Keeping this in mind, we would like to invite you to a debate on the future of the Fit for 55 package. The aim of the debate is to see how Fit for 55 can be used to increase the EU's security and what changes might be needed to current EU policies.*

**AGENDA**

15:00- 15:05	Welcome word	<b>MEP Marian Jean Marinescu</b>  <b>Marcin Nowacki</b> , EESC Member, President of the European Enterprise Alliance
